Spiritual Care for Those Living with Dementia

Cindy Lewans is an Associate Chaplain at Sherbrooke Community Centre and Central Haven, and a member of the Sisters of the Presentation of Mary. For the past six years, she has had the grace and privilege of journeying with people – including those living with dementia - in a mutual quest for spiritual health and full life.

A former teacher, Cindy studies what makes for holistic spiritual health and care, particularly for those living with dementia. She seeks out studies, experts and resources which can help in this arena, and strives to integrate these into improving her practice.

This workshop is a means towards reaching that goal, as well as sharing beneficial learnings with other caregivers. Cindy hopes to address some key issues and practical responses.

In this workshop, we will look at:

- Situating ourselves and where we are at with dementia
- Defining dementia; understanding the key characteristics; how it affects family and friends; and the changes which occur in the brain
- Implications for how we approach and communicate with someone who has dementia
- The challenge of dementia for Western culture
- Redescribing dementia
- Spiritual needs; common issues
- Helpful responses and tools
